

Requesting a proclamation in honor of Unmarried and Single Americans Week

Californians are invited to send this letter (Word Doc) to their local politicians. Feel free to make changes to the letter or to write your own.

Find contact information for your federal, state and local representatives via www.congress.org.

By making this request, you will remind politicians to consider the interests of unmarried and single voters. By issuing a proclamation, a politician will go on the record as someone who cares about the issues affecting unmarried and single people.

Please remember to send AtMP a copy of any letters you send and any response you receive. We'll post every proclamation here!
